Note for editors

In 2017, BEREC is set to review its [current Medium-Term Strategy](#) to make sure that its work stays relevant in relation to the major developments in the digital ecosystem. The Medium-Term Strategy has the function of guiding BEREC's work in the medium term (2018-2020) and it serves as the blueprint for BEREC's annual work programmes. The current iteration of the Medium-Term Strategy was published in 2014, establishing three overarching strategic objectives that follow from the policy objectives and regulatory principles that its members apply in accordance with Article 8 of the Framework Directive:

- Promoting competition and investment,
- Promoting the internal market and Empowering, and
- Protecting end-users.

BEREC enters the process of the review of the Medium-Term Strategy maintaining its commitment to these three strategic objectives.
